How CRSC uses this chart

CRSC has no separate table. Your branch decides which rated conditions are combat-related, and that percentage is valued from this chart. The payment cannot be more than the retired pay you waived to receive VA compensation, and Chapter 61 retirees with fewer than 20 years have an added limit tied to years of service. CRSC is tax-free. Back pay uses the rate in effect for each past month, not the 2027 rate.
