

CLEAR INFORMATION · PRIVATE CHOICE

A clearer first step for CRSC questions

General education · Retirees decide whether to contact us

A practical starting point for military retirees and the people who help them prepare.

START WITH THE QUESTION

Are you preparing an initial CRSC application, trying to understand a prior decision, or asking about a payment? You do not need a perfect file before a first conversation.

KEEP THE RECORDS YOU HAVE

Have your DD-214/215, complete VA decisions and VA disability breakdown letter available if you have them. If you previously applied for CRSC, keep the prior application and decision together. A formal VA rating code sheet is different from a disability breakdown letter; keep an existing code sheet, and let staff handle an authorized request when one is needed.

LET THE RETIREE CHOOSE THE NEXT STEP

Share a link rather than another person's contact details or records. The retiree can request a resource, choose a free 15-minute conversation or use an official route. Do not send medical records or identity numbers through public forms.

A CLEAR PLACE TO BEGIN

ABOUT STANDFAST

Standfast Veterans Group is a private, for-profit CRSC packet-preparation company. Any paid work is explained in a flat-fee agreement before engagement; we do not charge a percentage of back pay. A resource request is not an agreement to buy.

Not a law firm or affiliated with VA, DoD or a military service. No eligibility, approval, amount or timeline is guaranteed. Sharing this resource does not imply endorsement or a partnership. No contact list or referral payment is requested.

Free official starting points: your retiring service's CRSC office and [VA's CRSC overview](#). You may apply directly and explore assistance from an accredited VSO. Follow current service instructions; this handout is not a filing checklist.
